## JOB DESCRIPTION: WELDER

Danieli Group started as a family-owned business in 1914 and has grown into one of the leading manufacturers of plants and machines for producing metals, meeting the needs and ambitions of customers worldwide. With more than twenty-five divisions comprising valuable, international and unique talents, the Group is rooted in the same values that have accompanied it since its founding: innovation, team spirit, excellence and reliability.

We are currently looking for talented welders to join our team. The right candidates will operate in a structured production department and will carry out the following tasks:

- Analysis of Work Cycle for the parts to be welded and of the related type of W.P.S. to be applied;
- Execution of Quality Test in case of welds that require dye penetration testing
- Knowledge of the materials to be worked (e.g. stainless steel, steel, copper, bronze, etc.)
- Tooling setup and related ordinary maintenance;
- Handling of the parts to be welded (or already welded) by EOT crane;
- Input of the various production phases on control units;
- Regularly reporting of work progress to the direct supervisor, pointing out any related problems
- Comply with safety rules (e.g. use of PPE) during work.

### **Experience and technical skills**

- Diploma as Industrial Mechanic Technician or Certificate of secondary vocational education in fabrication & welding;
- Previous experience in the role of 3 or 4 years in structured industrial settings;
- Good knowledge of wire welding (continuous wire and flux cored wire);
- Knowledge of also submerged arc welding and TIG welding is preferred;
- Good knowledge and reading ability of technical drawings;
- Good knowledge of the main measuring instruments.

### **Aptitudes and Soft Skills**

- Accuracy and dependability;
- Availability to work in two shifts;
- Determination and result orientation;
- Teamworking;
- Initiative and decision-making spirit.

**Place of work:** Buttrio (Italy)

**Type of contract and salary:** Depending on seniority and experience.
