| PROFILE | RESEARCHER POSITIONS AT THE EUROPEAN CENTRE FOR THEORETICAL |
|--------------|--|
| | STUDIES IN NUCLEAR PHYSICS AND RELATED AREAS (ECT*) |
| N. POSTS | 3 |
| LOCATION | TRENTO - ITALY |
| VALID TILL | November 23, 2021 |
| DESCRIPTION | The successful candidates will be expected to conduct research within any of the fields of Theoretical Nuclear Physics and Computational Physics. Particular attention is given to research areas which enable collaboration with the researchers at the Centre. This includes Quantum Chromodynamics, quantum simulations for strongly correlated quantum systems, and hadron therapy. The eligible candidates should have: • Master Degree in Physics, Mathematics or other relevant degree; |
| | Research experience in any of the research topics mentioned above; Oral and written proficiency in the English language. |
| | Additional requirements: |
| | Ph.D. in Theoretical Physics (to be awarded by the start date of the position). |
| | Requirements and more info: https://jobs.fbk.eu/ |
| HOW TO APPLY | Candidates are requested to submit their application online at https://jobs.fbk.eu/ |
