

Are you motivated for new challenges, and want to be a part of the Cutters family?

Then you are the one we are looking for: HAIRDRESSERS

We are always on the lookout for talented hairdresser's that know how to put visiting guests in the center of attention. At Cutters we love to give our guests the best possible experience that they can have in our salons. We are looking for new employees that share our passion about hair combined with high service, who are professional and always give our guests a high focus and a big smile. Cutters main focus is to make sure all of our customers feel seen and taken care of when visiting our salons, where eyes for details is one of our core values. We want our customers to feel like the true rockstar they are.

For those who work in Cutters, it is as much important to offer an effective and quality proof haircut, as well as making customers feel welcome at our Cutters salons and taken care of in the best possible way.

So if you love to cut hair and love to provide good service, we would love to hear from you – we take care of each other, and our goal is to create the best working environment for our employees.

About the employer

Cutters is Norway's most innovative and fastest growing hairdressing concept. Our salons are among the most visited in the whole country and we get a lot of attention from the media and customers. The Cutters concept has grown healthy and organic since it started in 2015, which we take great pride in.

Cutters is more than just about cutting hair, Cutters is a lifestyle and a way of thinking. Our core values are to cut time, cut hair and cut cost which reflects on thinking lean and putting the clients' needs first. Our employees are an extension of our beating heart, which is why we focus on social happenings, employees well-being and employees personal interest. Some of Cutters biggest upsides is the understanding on how hairdresser's work and thrive in their profession. That is why we have good salary terms and bonuses regulations, no chemicals and 6 hours shifts to make sure our hairdresser's health is highly prioritized at all times.

Cutters is an unorthodox way of cutting hair, such as highly focused on innovative solutions and lean approaches being accessible on digital platforms, digital payments and digital communications. The world is constantly changing and at Cutters we embrace everything that has to do with innovation and more sustainable

solutions, where technology and tech is the center of attention. At Cutters we like to take on new challenges, and that's why we always are looking for talented people to join us on our journey.

Working in the North

Have you ever thought about exploring or even living in the beautiful north that surrounds you with rich nature, mountains and rich countryside. In Cutters we are currently expanding all over Finland, Sweden and Norway. Our recruitment program enables you to do just that. We are located in the capitals and cities heart of all the countries' and the suburban countryside. We also help all our new hairdressers with settling in, no matter if you are on your own or bringing family members with you. Cutters takes care of its own and understands the challenges with moving into a new country, that is why our onboarding program helps everyone get started and well settled in all over the North.
