

## **Suong Van Hoa**

Dr. Suong Van Hoa is a professor at the Department of Mechanical and Industrial Engineering at Concordia University, Montreal, Quebec, Canada. He was the chair of the department from 1994 till 2000, and again from 2003 till 2006. He is a member of the Canadian Academy of Engineering. He has been working on composite materials and structures since 1979, on different aspects of composites such as stress analysis, finite element analysis, polymer nano composites, design of composites, and recently on automated composites manufacturing. He has more than 500 articles published in scientific journals and conference proceedings. He has worked on many industrially related projects on composites. He recently was awarded the Natural Sciences and Engineering Research Council of Canada Industrial Research Chair on Automated Composites Manufacturing, supported by Bombardier Aerospace, Bell Helicopter Textron Canada Ltd., and Delastek Ltd.
