

Job Description

JOB DESCRIPTION: MECHANICAL FITTER

Danieli Group started as a family-owned business in 1914 and has grown into one of the leading manufacturers of plants and machines for producing metals, meeting the needs and ambitions of customers worldwide. With more than twenty-five divisions comprising valuable, international and unique talents, the Group is rooted in the same values that have accompanied it since its founding: innovation, team spirit, excellence and reliability.

We are currently looking for talented Mechanical Fitters to join our team in Buttrio (Italy). The right candidates will operate in a structured production department and will carry out the following tasks:

- Assembly of machinery in compliance with quality standards and assigned lead times;
- Ordinary maintenance of instruments/tooling used for assembly;
- Analysis of Work Order (containing the specification of the plant production phases);
- Checking and reporting of any errors or modifications to be made to the technical drawing attached to the working cycle;
- Constant dialogue with the Quality Control Dept. as far as intermediate and final machine testing is concerned;
- Assembly of the machine system by using suitable lifting means (EOT crane).

Experience and technical skills

- Diploma as Industrial Mechanic or Electrical Technician or Certificate of secondary vocational education (mechanical or electronic specialization);
- Previous experience of two or three years as mechanical fitter or as maintenance technician of industrial equipment;
- Good knowledge and reading ability of technical drawings;
- Good knowledge of the main measuring instruments (e.g. gauge, micrometre, comparator, etc.);
- Previous experience in the assembly or maintenance of industrial machinery;
- Knowledge of the main steelmaking equipment is preferred.

Aptitudes and Soft Skills

- Accuracy and dependability;
- Determination and result orientation;
- Teamworking;
- Initiative and decision-making spirit.

Place of work: Buttrio (Italy)

Type of contract and salary: Based on seniority and experience.
