

N. JOB POSITIONS: 1

WORK PLACE: TREVISO (TV)

DEADLINE: 31/07/2021

PLANT IT SUPPORT (M/F/X)

E-Services, the IT Company of the De'Longhi Group, is looking for an **Automation IT Specialist**.

Job Profile:

The Manufacturing Application & Infrastructure Specialist provides technical and project support for the Plant IT applications and daily activities. He/she gives assistance for the change management, incident management and problem resolution, in order to reach the manufacturing goals, minimizing the loss of production due to IT related issues. He/she provides to the business lines IT support, in cooperation with Manufacturing Engineering, Production Control and Quality Control.

Main Responsibilities:

Perform implementation and 1st level support of mission critical plant applications. This includes a functional knowledge of all plant applications used by local plants, ability to troubleshoot system issues, manage and/or configure application and application access;
Provide daily assistance to the facility for computer hardware, system and software related issues.

Qualifications Knowledge:

Bachelor in Computer Science, Computer Engineering;
Knowledge of IT manufacturing system applications and plant support;
Knowledge of machine monitoring, performance and quality systems, component tracking, engineering systems and identification systems;
Knowledge of the C # programming language is a plus.

Skills, capabilities, Competencies:

Analyze, develop solutions, and resolve issues to minimize or eliminate user or system downtime;
Ability to problem solve individually and within a team, ability to make timely decisions;
Knowledge and experience with computer software / hardware, related equipment and networking, SQL Server, database management;
Plant operations knowledge (processes / systems);
Availability for shift work;
Ability to travel nationally and internationally;
Fluent in English.

Conditions:

Permanent contract for an experienced candidate, fixed term contract for a candidate with the required skills, but without experience. The salary depends on the profile of the candidate.

HOW TO APPLY:

To apply for this position you need to register as a citizen in the institutional web site www.cliclavoroveneto.it using your Spid, then enter in your personal area.
