THE ROLE

- You will identify and assess emerging technologies and communicate your results and recommendations to our clients
- Drive projects with NineSigma global research teams to identify radical innovations that will make a difference for our client's future
- Evaluate innovative solutions and companies (spin outs, start ups, SMEs, corporations) to select the best for our client's needs
- Communicate the results in client meetings with reports and recommendations
- Prepare Executive Summaries and communicate a simple overview of complex topics to our clients
- Advise clients on: partner selection, launching new products / services, building their R&D / manufacturing capabilities
- Work on cutting edge topics: AI, sustainability, digital tech, biofuels, future mobility, industry 4.0, clean / low carbon technologies, advanced materials...
- Work independently and as part of a multidisciplinary, global team
- Initially you'll assist Program Managers to scope new projects and deliver results and recommendations to our clients
- Energetic, results driven individuals can progress to become a trusted advisor and manage client relationships
- Support colleagues in business development by demonstrating your expertise in areas that interest potential clients.

ABOUT YOU

- A strong desire to seek information, understand technology and cutting-edge solutions
- Excellent communication skills, both written and verbal
- Comfortable taking a client facing role
- Confident giving presentations on technical information
- Communicate easy to understand conclusions and recommendations to clients

- A degree in a science, technology or engineering subject
- A MSc or PhD is desirable but not essential.
- 1 to 2 years experience in a scientific, technical or business environment
- Attention to detail, problem solving skills and good computer literacy (including MS Word, Excel and PowerPoint, database searches etc)
- Fluency in English essential. Another European language is desirable for example French or German

INTERESTED ?

- NineSigma Work environment provides a privileged insight into cutting-edge developments across a wide range of science-and-technology domains, unmatched by any other organisation worldwide
 - This role is a career opportunity of high visibility across the academic, corporates, innovative SMEs & entrepreneurial world.
 - Please submit your resume and cover letter by e-mail to: Diane Schepers europe@ninesigma.com
- No acquisitions
